

Drainage System Maintenance Contractors

It is wise to obtain at least three bids. This is a competitive field and it is often possible to realize a substantial savings by soliciting competitive bids. *When requesting service from a contractor, provide the contractor with a copy of the inspection report and site map.* The information it contains will save time and make it easier for the contractor to prepare an accurate bid estimate. The contractors may contact Seattle Public Utilities if they require a clarification of the report.

Seattle Public Utilities makes no recommendation whatsoever regarding any private contractor who performs drainage system maintenance. The companies listed below can be found in the Yellow Pages phone book, under Sewer/Drainage Contractors. Most maintain, clean and install components, and install oil absorbent booms and cushions. This is not an all-inclusive list of contractors that can provide this type of service.
